## NO MISTAKE ABOUT THE CITY'S POSITION

The response of the business men of Bridgeport to Mayor Lee's request for vigorous support at the hearing before the Railroad Commissioners yesterday on the car barn exits was in every way satisfactory. Citizens of prominence were on hand to convey to the Commissioners their views on the situation and the congestion which they believe will follow if the spur tracks for the entrance are allowed, either at Congress street or Fairfield avenue, for it appeared at the hearing that the Street Car Company, after announcing that it had no objection to the Fairfield avenue idea, had taken it up again before the Commissioners.

## Good value is stitched into every garment in the June sale of underwear.

Practically every piece in the big assembly was made of the store's order and to our notion of what is right. Almost only exception is the fine underwear from France—and that is so rich and dainty it tells its own story of the care that was used in its making.

But all the remainder, the store had made in the way it believed would suit you. Stitching is careful, models are correct, trimming is tasteful,—and there is always special value for the price.

Easiest thing in the world to say such a thing. "Everybody says that" is the comment. But yours is the privilege of proving or disproving the claim—and we are ready with the garments as evidence.

Come, inspect them, pass judgment,—and effect true economies.
